**Concordance Healthcare Solutions Named the First National Healthcare Distributor
For the Dynamics Nanowave Air™**

TIFFIN, OHIO – December 23, 2020. Concordance Healthcare Solutions LLC, one of the largest, independent, healthcare distributors in the U.S., today announced the signing of a definitive agreement with Dynamics Inc. (Pittsburgh, PA) to nationally distribute the Nanowave Air™, a device that is a major breakthrough in the fight against SARS-CoV-2, the virus that causes COVID-19.

Dynamics “Nanowave” Technology is the first technology to successfully inactivate aerosolized COVID-19 virus in fast moving air at multiple labs from the NIAID Biodefense Laboratory Network. The technology inactivated the COVID-19 virus at the maximum airflow speeds of the labs while also exceeding the viral detection limits of those tests. Dynamics Nanowave Technology also inactivates pathogens that cause the common cold, tuberculosis, staph infection and influenza, among others.

“Dynamics is proud to name Concordance as the first national healthcare distributor of the Nanowave Air™. It was a perfect fit, as both organizations share the same like-minded philosophy to improve and adapt our services to our customers' unique needs. During the pandemic it is critical to provide solutions that can help people and their loved ones,” stated Jeff Mullen, Dynamics founder and CEO.

“Concordance is pleased to partner with Dynamics, a company that provides new technologies and evidence-based practices, to support our purpose of Positively Impacting Lives™,” said Geri Lamano, Concordance Corporate Director of Equipment Sales & Services.

About Concordance Healthcare Solutions

Concordance Healthcare Solutions, one of the largest, independent, healthcare distributors in the U.S, is built on over 175 years of combined industry experience through the merger of three of the nation's premier healthcare distributors. Concordance spans the U.S. market with twenty distribution centers licensed in forty-seven states. Concordance delivers dynamic, dependable service to the entire care continuum including Acute Care, Community Health, Government, Home Care, Hospice, Laboratory, Long Term Care, Primary Care and Surgery Centers. In addition, Concordance has experts dedicated to healthcare education and redistribution while offering comprehensive support for every step of your equipment, remodeling and construction project needs.
